Dear Steina,

as I promised, I send you some more details about the French festival, in Hérouville Saint-Clair, Normandie.

The same is VIDEO ARTS PLASTIQUES, and it takes place every year at the end of november. They show video art, movies and videotapes on art, and installations. Each year they have a "special gest", "Invitéd'honneur". Les organisateurs (sorry, my french is prevailing on english) would like to invite you and Woody for nov. 1994, if they can afford the costs.

So, they need to know:

how much money for 2 tickets (Santa fe- Paris) ; for one installation, one lecture and one evening of videotapes (3 hours). And how much, possibly, for a complete retrospective.

You can WRITE TO Daditte Berberian, who is one of the directors, and ancient founder of the festival:

DADITTE BERBERIAN, 5, rue Barrault, 75013 PARIS (France)
tel. 33. 1. 45 89 99 67

I really hope this will not be another hall in the water, as we say in italian. Usually this is a good festival, maybe the best in France... I can only wish for the best.

I shall write again about your tapes, telling what we have already. I have to look for in Peter's territory. *

We wate for your demo, a big hug from me and Peter

Rosanna

* It was easy! we have:
