Dear Steina,

The project sounds perfectly appropriate for the newly named Media Bureau - don't wince, it's still mainly for video people but funds will also be available for some intermedia projects - hence the change.

However, we don't know whether we'll be refunded for the new fiscal year beginning July 1 and will only hear in mid-September. So I'm sending you an application form which you should fill out and return to me. (Eric is on vacation). But I must stress that we can make no commitment to funding until we hear from the Council, so any projects you undertake will have to be on spec.

Please drop by next time you're here.

Regards,

Mary
