# PEOPLE'S BLOCKADE

# PEOPLE'S BLOCKADE

## GOALS

Interdict the flow of ammunition to Indochina

Support GI's who are resisting the war

Stimulate other People's Blockades

Educate the American Public and the Leonardo Community by spotlighting the depot and its implications.

Undermine support for the war.

## WHY?

- 92% of all supplies for the war in Indochina go by sea
- Earle Ammunition Depot in Leonardo is one of five naval ammunition depots in the U.S.
- It is entirely devoted to storage and transport of munitions: bombs, rockets, shells.

## NEEDS

People, Spirit, Money,  
Boats: kayaks, canoes, sailboats, rowboats,  
yachts, cruisers, clipper ships . . .

NYC INFORMATION NUMBER (212) 741 0750 (QUAKER PROJECT)

Sponsored by: Movement for a New Society, Philadelphia, Vietnam Veterans Against the War, Philadelphia, Philadelphia Resistance, Philadelphia Episcopal Peace Fellowship, National Episcopal Peace Fellowship.

## NONVIOLENT TONE

It is important that people planning to participate in the blockade understand the nature and reason for nonviolent actions at Earle Depot. We are attempting to stop the slaughter of our Indochinese sisters and brothers by placing ourselves between the ammunition and them. Unlike our government, we wish to prevent death and destruction, rather than inflict it on others. We cannot allow the government to shift the the responsibility for violence from themselves to the peace movement and will not be diverted by provocateurs who encourage violent confrontation.

Because we want everyone, including the police and the military, to join us in our attempt to stop the killing, we will not provoke them by hostile words or name-calling. Nor will we respond violently to acts directed against us by those who oppose us. The integrity of our blockade is made clearest when, by our actions, we express the love and humanity that is so lacking at Earle Depot, a place of death.

Tuesday, June 6 TRAINING SESSION for nonviolent direct action  
7:30 p.m.

2 Friends Meeting House

15 Rutherford Place (between 15th and 17th Streets, and between 2nd and 3rd Avenues)

# CALENDAR OF EVENTS

Since APPLESEED is a Free Space, the calendar and the list of on-going events lists only events that are free, or for which there is an optional contribution. Please let us at APPLESEED know if you are refused free entry to any of the events listed because you don't have the bread.

There are two exceptions to this general policy: Events with fixed expenses may be listed if those expenses are nonprofitmaking, for example, the cost of buses to a demonstration. The second exception is that bona fide benefits with fixed admissions may also be listed in APPLESEED.

## ORGANIC FARMING APPRENTICESHIPS

Open to anyone wanting to live and work an organic farm in New England or Canada.

The N.Y. Switchboard (533-3186), 133 West 4th Street, New York, N.Y. 10012, is coordinating the program with the New England Farmers Association. This is a work-study (mutual) accomodation and the attitude of those applying should be that they are primarily interested in the work-study experience. To join with the attitude that this is a chance to hang out in the country would be to rip off these farmers, who put a 50 to 60-hour workweek in in order to survive the competition from the larger, commercial farmers. Please contact them directly giving details in your first letter. All arrangements are strictly between you and the farmer. The addresses to write to are:

Robert Fortunati, 30 Arcadia Rd., Billerica, Mass. 08121 (100 acres in Corinth, Vt.; 60 woods, 40 open fields, undeveloped).

Cliff McDonough, 29 Main St., Belfast, Maine 04915 (60 acres - small garden, some sheep and beef. He works in outside job fulltime).

Judy and Hal Hinds, Cross Creek, New Brunswick, Canada (homesteading family, 150 acres, some goats and rabbits, plans for future greenhouse, extensive farming library).

Eugene Combs, Natural/Organic Farming, Route 9 & 202, Troy, Maine 04987 (large acreage in wheat, some goats, chickens, modern equipment, wants to teach serious prospective organic farmers).

Kenneth L. Horn, Ken-Ro Farm, Sawyer Rd., Plymouth, Maine 04969 (minimum of 3 acres in vegetables; cows, chickens, bees - no smokers should apply).

APPEAR UNTIL ENOUGH MONEY  
IS RECEIVED TO PRINT IT!

## THE THREE POINT PROGRAM FOR PEACE IN INDOCHINA

1. Within twenty-four hours of the Inauguration the next President will end all air, ground, and naval operations in Indochina.
2. Upon taking office, the next President will announce a date not later than April 20, 1973 by which the withdrawal from Indochina of all remaining U.S. personnel will be completed. The process of withdrawal will begin immediately, will be phased with the return of U.S. prisoners, and will be subject only to the reaffirmation by the other side of their commitment to safe conduct for withdrawing U.S. personnel.
3. The next President will announce on Inauguration Day that the United States will no longer finance the Thieu government or any government in Saigon that keeps tens of thousands of political prisoners in jail, suppresses opposition newspapers, harasses political meetings, or engages in other forms of repression which make a peaceful political accommodation in South Vietnam impossible. All aid to the regimes of South Vietnam, Laos, and Cambodia which enables them to carry on the war will be terminated on February 20, 1973.

For further information, contact THE CITIZENS' COMMITTEE FOR THE THREE POINT PROGRAM, 300 East 42nd St. (12th floor), New York, N.Y. 10017. (986-4200 ext. 250).

WEATHERMAN UNDERGROUND #12 was received by us at APPLESEED. It was dated May 19, 1972, the 82nd anniversary of the birth of Ho Chi Minh. The six-page communique discussed the war in Indochina and said: "Today we attacked the Pentagon, the center of American military command." Among the quotations from Ho was: "Nothing is more precious than independence and freedom, and we would rather sacrifice all than lose our country and live as slaves."

This report is being reprinted in full in the current issue of Liberated Guardian.

FREE SPACE RAP

For the past five months, Free Space has been seeking quarters where it could set up a free school and carry on its diverse liber- and liber- activities. We are looking at a building in a good area on East Side. The building of a 1000 square feet for the building would like to buy. We are looking for groups that in which to work.

**O N**

To do this, anyone who would like to work with us should call us on Thursday for a meeting. We decided to take out a separate account for Free Space, while leaving the APPLESEED account in the bank. Checksigners for both accounts were chosen.

Abbie Hoffman and Jerry Rubin asked Living Theater to help them at the democratic convention in Miami Beach. Living Theater called a meeting of anarchists in the morning to advise them on the part. The meeting was not participated. Many people felt the anarchist presence in Miami was understood and would be. The opinion was expressed that they should participate in politics only at the community level - that they should shun any participation in elections above the community level.

TO THE 3RD AVENUE STRUGGLE

In the last issue of APPLESEED, we left the community under threat of being chopped off by the landlords who had proposed to rezone the community by rezoning it for housing. There had been a coalition of Living Theater and Ecology Action East in a action to support the

The latest news is that the builders have withdrawn the proposal for rezoning, saying that there is too much opposition within the community. They must have seen the writing on the wall!

Forced by the intensified discussion of the CONDITIONS OF LIFE  
on OUR LIMITED PLANET,  
POLITICIANS,  
GOVERNMENTS,  
CORPORATIONS, and  
INTERNATIONAL ORGANIZATIONS

have begun to talk about the "human environment."  
With this title the United Nations is planning a huge conference  
to be held in Stockholm, Sweden, from June 5th to 16th.  
The conference will be visited by some 1200 delegates -  
primarily politicians -  
from more than a hundred countries.

But politicians from all over the world,  
assembled for a couple of weeks in Sweden  
will not be able to solve the problems we face.  
What the politicians can do is to  
refer to FOGGY CLOUDS  
made by the EXPERTS  
and thus make many of us believe  
that the problems are too difficult for us to understand.

As reflected already in the conference title,  
they will present a picture  
in which politicians heal the wounds  
of MAN'S ENVIRONMENT,  
while MAN HIMSELF is left powerless and  
without a creative role.  
(Not to speak of WOMAN HERSELF who is completely forgotten  
in the whole pompous mess.)

The politicians will formulate the ISSUES so that the task appears to be  
to MODIFY THE CONSEQUENCES of the current development  
rather than to CREATE A NEW WAY OF LIFE.

They will present endless RESOLUTIONS  
to convince us  
and maybe even themselves  
that our future is IN GOOD HANDS.

The "Message" from the Conference will be propagated all over the world.  
At least 500 journalists  
from newspapers, magazines, radio, and television will be present.

OUR TASK IS CLEAR!  
Get together and do some THING  
during or before June 5th to 16th.  
Join these actions, which will be  
D E C E N T R A L I Z E D .

Every group in the world undertakes the kind of actions they prefer,  
and no one will act as international bureaucrats.

In Stockholm many events are planned under the common name of  
POWOW.

This is an American Indian word  
meaning a gathering of the people  
talking about important things  
or performing feasting and dancing  
for the cure of problems or to reach victory.

## LETTUCE BOYCOTT RESUMES

The lettuce boycott is on again! Refusal by the vegetable growers to continue serious negotiations with the United Farm Workers has made it necessary to call upon consumers throughout the country again to refuse to eat or buy iceberg lettuce.

Only a small percentage of the lettuce industry is under UFW contract. This lettuce can be identified by the UFW Union Label, an Aztec eagle with the words "Farmworkers, AFL-CIO." If you don't see the union label on the cellophane wrapper, don't buy. And of course refuse to eat lettuce at school, work, parties, or restaurants.

For more information, call the Manhattan Boycott at 594-0694.

Boycott ALL iceberg lettuce

SPEAK OUT FOR CHANGE is the theme of a unique conference being planned by older women for all women. OWL (Older Women's Liberation) has been actively planning the conference for over six months. The organizing principle will be consciousness raising and every effort will be made to encourage every woman to participate and contribute her experience to the growing body of material being collected by OWL. The conference will be held at Marymount College, 221 East 71st Street on June 3rd and 4th.

The conference will open at 10:30 am on Saturday with keynoters: Bella Abzug, Ti-Grace Atkinson, Dr. Dorothy Tennov, Elizabeth Janeway, and Barbara Seaman.

Workshops will include: alternate life style, re-examining marriage and the family, health, economic survival, second start, menopause and sexuality, politics, legal rights of the older woman, status & role, prostitution, the arts, and physical consciousness raising. Fee is \$5 (\$3 for one day). No one will be denied access to any part of the conference for want of a fee.

ANARCHOS

ANARCHOS #4 is coming out in a few weeks. It will include articles on organization, consciousness and the New Enlightenment, education, poems by Diane di Prima, and radical lesbianism. Send self-addressed, stamped (20¢) 8½x11 envelope to P.O. Box 466, Peter Stuyvesant Station, New York, N.Y. 10009. (A 50¢ contribution is requested unless you are really broke.)

Dear Friends:

I am writing to you as a member of CONSUMERS LOBBY FOR THE ENVIRONMENT (360 West 22nd St., NYC 10011), a Manhattan based group whose main interest is reducing the paper component of solid waste by creating markets for recycled paper.

Since paper and packaging account for about 50% of solid waste, CIE is asking that all paper users request recycled paper when ordering leaflets and office stationery.

Recycled paper is now competitively priced and is generally obtainable through most paper distributors. Should your organization be interested in alleviating the solid waste problem but need help in finding a source for recycled paper, CIE would be glad to assist you.

Sincerely,  
Lois Katz

## Women to Ring the Capitol June 22 to Protest the War

Special to The New York Times

WASHINGTON, May 31 — Joan Baez, the folk singer, and more than 30 other women gathered on the east steps of the Capitol this afternoon to announce plans for a "ring around the Congress" antiwar demonstration June 22.

Miss Baez said later that the idea for the protest, which is to consist mainly of women and children, was developed by her and Mrs. Coretta Scott King, the widow of the civil rights leader.

Miss Baez said the encirclement of the Capitol by women and children would show "American outrage" at the Vietnam war.

## GAY SPEAKERS BUREAU

The Gay Activists Alliance Speakers Bureau offers panels of experienced speakers at no charge to high schools, colleges, and other audiences. The panelists answer questions on homosexuality and gay liberation. In the past few months alone, we have spoken to several dozen high school and college classes and other groups in New York, the suburbs, and neighboring states. To reach more people, we need leads and help concerning possible new engagements. An invitation to speak often stems from the initiative and interest of a single teacher, student, or a member of a group. If you can help, contact:

## WOMEN'S ABORTION GROUP

For the past 2 years, the Women's Health and Abortion Project has functioned as a group of 40 women providing health and abortion care. For a year and a half we have maintained an abortion service of our own. The group decision of the project was to disassociate itself from the abortion service in order to focus energy on other women's health issues. Involvement with abortion will now be limited to referrals. However a number of us plan to continue what we believe to be an unique service with Drs. Calfron and Schuldenfrei. Please direct abortion referrals to our new phone numbers:

NEW YORK SWITCHBOARD now has a large library of underground newspapers and literature on file from all over the country. If your organization needs to find out about happenings in other parts of the country, for example, to use in your publication, feel free to stop by and look through our file. We are open from 10 am to midnight, seven days a week.

We also have a people's truck, a used mail truck, which you can schedule if it is not being used, anyday except Thursday morning and afternoon is generally possible. The cost is gas plus \$1 or \$2 an hour for maintenance (whatever you can afford). Call the Switchboard for more information on the truck or the newspapers.

We, the Switchboard, are constantly trying to improve our efforts to serve the people of New York City. If you know of any new programs or services for people let us know about them. If you are planning a political action, let us know. The church where we are located is a major center for movement activities and you are likely to find support here. Finally, let people know that we exist; if you can, publish our number and a description of our services in your paper - we are basically an information and referral center for alternative institutions in New York City. Drop by and see us at any time.

# GAY PRIDE WEEK

## COME OUT! MARCH! CELEBRATE!

The Third Annual Christopher Street March will be held Sunday, June 25. It commemorates the third anniversary of the Stonewall Riots. Do you remember them? That's when it really began. At the time did you worry about chants like "Gay Power?" Did you think those Village Queens were making trouble for the rest of you? Then remember the pre-Stonewall days. How many bars were there in N.Y. at any given time and how long did any one bar stay open? Were you ever arrested for being in one or beaten up by straight gangs and not able to report it? Did you ever see some ridiculous TV program on homosexuality with the few gays represented on the panel appearing with their faces bandaged and dark glasses so they wouldn't be recognized? We have a long, long, uphill fight but there has been change. Let's be grateful for that. If you haven't taken the Christopher Street walk before, try it. It's more fun than Riis Park—sort of like a gay Christmas only more important.

Even with only 5,000 it's wonderful to be together en masse. Of course it's more wonderful with 50,000 for lots of reasons. The movement needs the gay community's support and the gay community needs the movement. Let's connect June 25th.

# Syllogia on Love

by Aaron David — for Shirley, who always seems to be there

Major premise: God is love

Minor premise: Love is blind

---

Conclusion: God is blind.

Commentary: This would explain a great deal without resorting to the extreme of assuming his death

Major premise: Love makes the world go round

Minor premise: Inertia is the tendency of an object in motion to remain in motion

---

Conclusion: Love is much over-rated.

Commentary: if love is the opposite of hate, why is New York City not spinning in a direction counter to that of People's China?

Metacommentary: how do you know it isn't

Metametacommentary: is this what is meant by revolution and counterrevolution?

---

Major premise: Love conquers all

Minor premise: Atilla the Hun conquered quite a bit

---

Conclusion: Atilla the Hun was motivated by a deep love for those whose countries he ransacked and pillaged

Commentary: Richard Nixon is saving the Indochinese peoples from the tyranny of life under Communism.

---

Major premise: God is love

Minor premise: God is dead

---

Conclusion: the Lord moves in mysterious ways His wonders to perform.

Commentary: Love is the next best thing to being there.

"On to Miami!" The party invitation has been extended by Volvox/YIP for a gathering of tribes in Miami this summer. All are invited to come and join the festivities there. The purpose of the party will be threefold:

First, to confront the Democrats and Republicans during their conventions with the futility of electoral politics; second, to struggle for the implementation of the Vietnam Provisional Revolutionary Government's 7-point peace plan; and third, to get fucked-up high.

The first purpose of the parties - the Democratic convention being from July 9th to 14th and the Republican convention from August 21st to 23rd - will be to expose all the candidates for what they are. There is no difference between a McGovern, a Humphrey, a Wallace, or a Nixon other than the superficial manner in which they seek election. The same blood money finances their campaigns - the same policies will be enforced after the election of any one of them - the same repression of liberation movements will be carried on whatever happens in November. We're partying for an end to electoral politics on a national scale.

The second purpose of the parties is to put our best foot forward in supporting the 7-point peace plan. We will demonstrate actively to have the plan ratified by the peoples of the United States. We choose the conventions as sites for these demonstrations only because they will have excellent news coverage.

The third purpose of the parties is perhaps the most important. It is just to get fucked up with sisters and brothers. Getting high is a political act in itself and we should act politically at all times. Bring your own and bring a friend, and let's try to make Miami one continuous toke.

Well, hoping to see everyone in Miami this summer. Remember, only through action can you kindle a liberation fire. We'll be looking forward to seeing everybody on July 7th for the opening toke-down in celebration of Che Day.

The New York City Arts Committee of the NATIONAL ORGANIZATION FOR WOMEN maintains an arts reference display which exhibits work by women in applied and fine arts, writing, photography, and the theatre. pressive social relations.

influence in my therapy. Fees are  
arranged in line with ability to pay.
