Dear Steina and Woody:

I have admired your work for many years and I am writing to let you know that a selection of tapes will be shown in the video program at The Institute of Contemporary Art beginning February 19th and closing in April. The ongoing media programs are presented hourly in a theater adjacent to other ICA galleries used exclusively for video.

I have arranged a rental through Electronic Arts Intermix for "Southwest Landscapes", "Four Short Programs" and "The Commission."

The tapes are included in a series called "FOCUS" which includes early and current work by artists. I am pleased to show your work in Boston and an invitation to the exhibition opening will be sent to you shortly. Please let me know if your travel plans include a trip east.

Sincerely,

Bob Riley, Curator
Video and Performance Art
