Dear Woody,

As you may recall from my letter of last year (May 7, 1990), the show at the UMBC Fine Arts Gallery that I had asked you to participate in was postponed for one year. The time has arrived to finally mount the show, and with this letter I am enclosing two flyers that are being distributed to announce it.

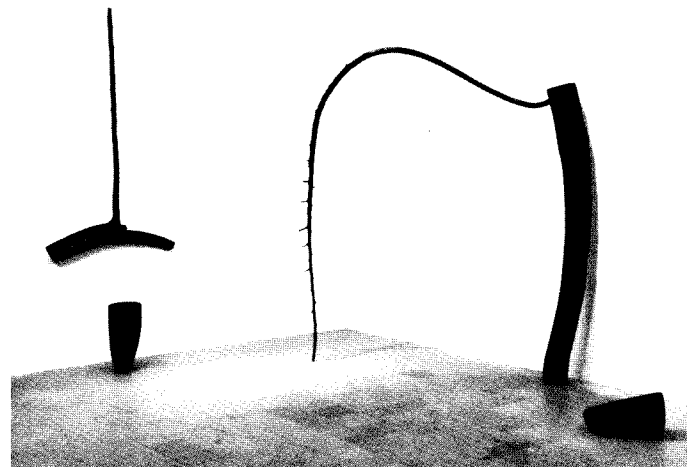

As it now is conceived, the show contains both an exhibition of installations by regional artists and a program of videotapes that are produced by non-regional (i.e. national) artists. The approximately 90-minute program that you are included in will run continuously in a small viewing room built into the large gallery space that is the Fine Arts Gallery. The video program is called "Video: Environments". All eight tapes deal with a portrayal of an environment, among other things. At least there is some common ground in all tapes in a certain reliance on a particular space or terrain, either natural, internal, or synthesized. I am writing a statement about the video program which will accompany the show, and I will send that to you later on along with any reviews or notices that may be generated.

Thank you for participating in this show. If you are in the Washington/Baltimore area around May 9, please come to the opening. I'm sorry that we are unable to bring you all in on this date, but the economy such as it is, we are just able to mount the show at all. Again, thanks for being a part of this program.

Sincerely,

Vin Grabill
