Dear Steina & Woody,

Many thanks for turning us on the Graz festival.. they have this week confirmed rental of our Traveling Show. Zinganel writes that they have not obtained the funding to invite other artists and curators from the States (airfare, etc.), but I've written back to inform him that Wendy and I will be touring Europe in May with the Traveling Show (Paris, Berlin, Locarno, etc.). I am hoping that this news will loosen up a small fee and train fare from Paris... if so, I'll see you (at least one of you) in Graz.

I've enclosed the new copy of SEND Magazine which includes the complete Festival catalog, and a copy of the Traveling Show program notes. Hope you enjoy. (Know any good writers/reviewers?) Also, our latest Gallery schedules. (Sorry to have missed your program at VFA, Woody. Kathy Huffman was presenting tapes at our place that night. I thought VFA exhibited on Sundays?)

Steina, remember at the NAMC conference in Minneapolis you scolded me for charging artists entry fees? Well, this year we've changed our procedure: submission is my invitation only, and no entry fee. Hooray! We've added an industrial category (video production houses, distributors, PBS stations, etc.) and they pay a \$40 entry fee -- in effect, subsidizing the artists' entries. More on this in a few weeks when the poster comes out.

Once again, thanks to you both. Hope to visit you in Santa Fe in the near future.

Best regards,

St. A.
