Dear Steina:

I just wanted to thank you for coming up to Plattsburgh and sharing your work with us. We felt your presence and interest encouraged further exploration in video art by the students. The response was extremely positive by everyone who saw your work and technical explanations. I personally was intrigued with your use of digital "block imagery". I would be interested in seeing how your set-up works and hope that someday you and Woody have workshop type sessions for artists to learn various aspects of video that aren't readily available in most places.

Again, let me thank you for accepting our invitation because it was very enlightening.

Most sincerely,
