SUPREME PARTICLES

■ MITTEILUNG / MESSAGE

DEAR VASULKAS,

how is life? The life of the institute doesnt look very healthy right now, mine looks okay and I hope yours is blooming. I never heard anything from isea, neither silicon grants nor hyena days... .

There's a lot of projects on this year with SUPREME PARTICLES, you now many small things add up to a plasmatic monster.

REQUEST: the Berliner Gesellschaft neue Musik Berlin makes a festival April/May and I told them that you have a great archive of your own music/image documentations (historic & new), and that laserdisc library from Linz 1992.

They are very interested to show your work there, maybe it would be possible to show an interactive console there.

If you like the idea, I will give these people your address. You CAN ask for some money there. I can also send you their address.

My family is still rather small but fine. Recesion activates the sleepless sleepers. You can also reach me via email privately.

I wish you luck and fortunate episodes,

Much Love, keep in deep touch
