A Proposal for a grant

A: Electronic Music; a workshop
every Sunday & Monday, where
students compose & develop
their ideas in concert with
other workshop participants.

B: A videotape exchange.
For some months now we have
had an open tape exchange,
young people & tape-makers
can show & attend.

C: Workshop oriented towards
the "play" aspects of the
process of "composing" they
will work with videotapes &
compiled images, much
the same way a electronic
composed.
2

A. Advanced Geography

Composition generates sound.

There are various techniques
d of doing so through oscillators
and sequencers generate
such as synthesizers. Their medium
is a videotape, but the trend is
toward more sophistication, as digital
computers or moving holograms (3).

They already received a grant
from The NYCOTA of $15,000,
for which they plan to buy equipment
and pay salaries. Though generous,
this grant is not insufficient for
all those activities taking place.

The Reciter (The Kitchen)

Sundays
Mondays 
June/July/July 21 Events
Arts \ Fee : Look at
Equipment : Hospital visits
Maintenance : Proposal
Rent :
Dimin', we are not a group but individuals.

Kitchens:
People using the kitchen are:

D. D.
Kings church
Andy, Matthew
Philipp, Anna
Michael
J. W. Hamil
Vanlka

Also on proposed expense account:
Each separately (like 1/2/3)

Also make a special time program
for musical institutions.
349 3000

No deadlines, gen. background, proposal brief, budgetary breakdown, people, all under one applicant.
Initial inquiry letter, include concise summary of proposal, estimated cost, copy tax exemption letter from IRS.

Personal Data:
1. Name
2. Address
3. Date of Birth
4. Country of Citizenship
5. Area

Purpose:
- To carry out... brief but specific

Academic Credentials:
- Date Degree (Ph.D.)
- Name of Institute attended
- Conferred Degree

Relevant Professional Experience:
1. Works published, performed, exhibited
   - Date, place, sponsors
2. Teaching, consulting, or related work in field
   - Nature of experience, Name(s) involved

Professional Recognition - prizes, honors, etc.

Portfolio:
- Not included in initial inquiry
- Inquire what to send - where, when, how, size, shipping & insurance both ways

Tax Exemption:

1. Summation of organization, purpose, date of establishment, board & staff, budget, program, past accomplishments. Why applicant is better qualified equipped/staffed to achieve desired results than others in its field.

2. What seeks to achieve - specific & regional impact

3. Overall financing of the project. Other individuals, organizations, supporting this & related proposals. Others whose support has been asked, who have declined, grants made...
4. Evidence that some, similar or closely related projects are not already happening
5. Expected duration of project
6. Names of informed persons, independent of the organization and its leadership who may be consulted on project
7. Any previous contact with the foundation
8. Copy of last annual report, last audit report; if none, statement on income, expenditures and progress for past year

Light coming from our nearest spiral
galaxy in Andromed which we once
saw when Megatherium, an 8 ft tall
ground cloth roamed through SW USA
and tool using hominids were
gradually emerging through slow
evolutionary process. The entire subject
of extragalactic astromony is based
on light which left these remote
galaxies in prehistoric times when
man had not yet trod the Earth.

Anything above Absolute zero \((-273^\circ C or -456^\circ F)\)
radiates at all the wavelengths of
the electromagnetic spectrum,
called "thermal" emission, because
depends on no special emission
mechanism - simply the heat of the object.
Visible spectrum $\lambda = 4 \times 10^{-5} - 7 \times 10^{-5}$ cm.

Angstrom ($\AA$):

$1 \AA = 10^{-8}$ cm

$\lambda$ below 4000 $\AA$ are ultraviolet.

$7000$ $\AA$ - deep violet to deep red.

$\lambda$ longer than 7000 $\AA$ - infra-red.

Shorter wavelengths penetrate better. E.g., x-rays below 100 $\AA$; gamma ray $< 1 \AA$.

$\lambda$ longer than 1 mm are radio waves.

\[ K \rightarrow \lambda \rightarrow X \]
Evidence: 1. Wes lists
   2. Music lists
