We of the Kitchen are proud to announce the New York and world debut of the musical compositions of Mr. Woody Vasulka, one of our fellow co-workers, and a famed video artist, known for the delicate interfacing between video and audio signals. Mr. Vasulka's work probes the response of the viewer to frequencies, of light and sound, and induces an awareness to the pure electronic aesthetic derived from waveforms.

The live video works of Steina Vasulka are the visual pieces at this concert. The works performed are drawn from two years of experimenting with the video signal.

Welcome to our spaceship.....Soft landings.

Works performed of Mr. Woody Vasulka:

Calligrams

Submarine Seascape

In the Well

Seascape

Dee Track

Trivia/ Choreomania

Aria

All audio pieces were played on a Putney synthesizer, all recorded in real time, 2 and 2 tracks.
