

David Cort With His Friends

"Explorations in the Videospace"

- Part 1: A working videophone - an elementary 2-station black and white phone programmed to explore wipe connections and mirror space.
- Part 2: A presentation of a 2-station color videophone programmed to explore chroma key connections and mirror space including a video circus (live - live connections) and the elements (tape - live mirror).
- Part 3: Experimentations in off-screen photography (Kodak and Polaroid processes).
