2-Rear projection screens *
1-Stereo amplifier
2-Speakers with speaker cables
1-Transformer from 220 acv to 110 ACV, 619 Watts minimum
Tables or some harnessing gizmos to hang projectors and screens from the ceiling.

* I found a ideal screen material that would roll up for transportation, however I don't know yet where to buy it.

Question: What space are you giving me? Is it pit black? Sound-isolated?

Travel: Sorry, the plain Santa Fe/Denver is a little commuter aiplain, your travel agency should know better... Anyhow, I can arrange the trip to Kennedy from here if it is O.K. with you. It is bus to Albuquerque (100 KM), and plain to Kennedy. Question is if I should also pay the flugleidir part from here, the sales tax is much less. I can fax you the travel expenses as soon as I talk to my travel agent.

Expenses: You ask about a bill, can I get the \$ 5,000.00 spoken for or at least a good part thereof? Then there will be travel expenses depending on our arrangement. Needless to say, there are lots of other expenses: my shooting in

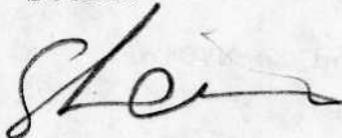

Expenses: You ask about a bill, can I get the \$ 5,000.00 spoken for or at least a good part thereof? Then there will be travel expenses depending on our arrangement. Needless to say, there are lots of other expenses: my shooting in Iceland, a lot of videotape both production and now post-production including laserdiscs, and at this point many 50-60 hours workweeks. But I don't know if these kind of expenses are covered for my fellow artists, traditionally this falls on the artists' shoulder.

Customs: I will have everything registered here for re-importation, and you are right about the stuff entering as a luggage, it only has to be registered as temporary import in Keflavik.

Keep sending these faxes, it keeps me on my toes!

best,

Steina
