Dear Videomaker:

The videotape you entered in the 1980 Athens Video Festival is under consideration for distribution by Ampersand, the distribution arm of the Athens Center for Film and Video. Your tape will therefore be held in Athens for approximately two more weeks while a selection committee views the tapes that are being considered for distribution.

If you need the tape earlier, please contact me and I will return it immediately. I apologize for any inconvenience this may cause you.

Sincerely yours,

Christine Rath 11/6/80
