### The Artists' TV Lab

The Artists' TV Lab is a resource center with 1/2" color and black-and-white videotape production, processing and editing equipment.

The Lab has been established to encourage artists of all disciplines to explore the video medium. A limited number of artists-in-residence will be selected monthly for free access to Lab facilities on a scheduled basis. They may also be housed at the WCV studio while working on their projects.

The Lab consists of the following equipment: a 3130-8650 editing system; a Siegel colorizer; audiotape recorder, equalizer and mixer; an 8400 portapak with 3450 camera; and a tivicon camera.

Interested artists can submit an example of their recent work (slides, 1/2" EIAJ videotape, photos, scripts, etc.) and a letter indicating anticipated projects utilizing the Lab throughout the year. Applications may be submitted at any time.

Please complete the following and return with your project(s) description(s) and supporting materials to:

The Artists' TV Lab
