ATTN: Steina Vasulka

Mid-Co TV Systems was contacted by Mr. Bradley of the Walker Art Center to present you with pricing on our video projectors for the May 21 and 22 show dates. Since we own such a large variety of projectors, I felt it would be best to send you the pages in our catalog which deal with projection.

The pricing listed is for the first show day. The second show day is charged at half the first days' price (i.e. 1.5 times the price for a two day show). Mr. Bradley mentioned you will bring in your own Sharp projector which is a multi scan LCD projector. Our Eiki projector is similar, but only capable of video resolutions. He also mentioned you require a Pioneer LD-V8000, we have the Phillips CDV-400 which is capable of playing all disc formats *except* Kodak Photo CDs. I can get the Pioneer LD-V8000 for \$150.00 for the two shows.

Mid-Co TV Systems terms are payment in full in advance of the show dates. We will accept charge cards for your convenience. There is a 3.5% handling fee for the use of American Express, Mastercard, or Visa.

I strongly recommend, if you do wish to rent any of our projectors, you place your order within the next two weeks as we are in the busiest season of the year. I can not garrantee the projectors will be available.

I look forward to assisting you in any way that I can. If you should have any questions with regard to our equipment or pricing, please feel free to contact me at (800) 808-1040.

Sincerely,

Jim Mueller
Rental Consultant

Hi Woody -

Glad to hear from you - I have a report, not gossip, about Prague for you.

1. The Soros Media show - Mr. Hlaváček considers my idea seriously and the whole theme is really about using Czech military technology for media art now. He even contacted Tamara already and I also convinced him to do the same thing for Semtex. We will visit those companies some time in April. All the members of the Soros board agreed with the theme and we just have to choose a right place and date to go to the full preparation.

2. Petr Vrana is now a big guy with a big belly for Nova TV (the first private TV station in Eastern Europe). If you happen to know who Stanislav Mikler is - he is also a completely Nova TV man now - instead of working to start the public access TV.

There will be three different media art events in Prague this year and there was an agreement between the organizers how to coordinate them.

We'll inform you the development of the show and will be happy to hear your opinion as well -

And here's a message from Arnold. He has (finally) a fax number. 49(30 443-9563, and his new telephone number is 443-9564. He will be in New York for two weeks and will be in Prague in most of April and May (he will have a performance here in June).

Love,
Keiko
